Applicant's election without traverse of the invention of Group III (clms. 44-57) and request to cancel the remaining claims 40-43 and 58-60 in the reply filed on August 3, 2004 is acknowledged.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 44, 45, 51 and 52 are rejected under 35 U.S.C. 102(a) as being anticipated by Swartwood et al. (5,979,522). With regard to claims 44 and 51, Swartwood discloses a wood chipping apparatus, comprising: a knife (12) having a back side terminating in at least one cutting edge, said back side having a first semi-cylindrical interlocking feature (fig. 1) therein; and a clamping member (16) comprising a projection terminating in a second semi-cylindrical interlocking feature (col. 2, lines 54-57) that is complementary in form to said first interlocking feature for engagement therewith, for clamping said knife in the wood chipping apparatus, said projection extending from said inner clamping member so as to permit rotation of said knife relative thereto during said engagement.

Art Unit: 3725

With regard to claims 45 and 52, Swartwood discloses the interlocking features to be a recess and convexly curved (figs. 2, 3).

***Allowable Subject Matter***

Claims 46-50, 53-57 and 61-72 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
